

FR 95 ROUND VIBRATORY PLATE

For compaction of sand, gravel and rock fill.

All our machine models are versatile and easy to operate. They are also durable and reliable, which means lower maintenance costs.

- The Swepac FR95 is ideal for work in areas with limited space, such as trenches. It is also suitable for use in gardens and parks.
- The machine's superior maneuverability and base plate design enable better compaction at curb edges and in corners compared to any other vibratory plate.
- The FR 95 works like a "regular" vibratory plate but is much more flexible.
- The ergonomic and well devibrated handle makes the FR 95 very comfortable and easy to operate. Hand-arm-vibrations are very low (< 2.5 m/s²).
- The chassis and handle are hot-dip galvanized providing a superior corrosion protection and maintenance free life.
- The excentric element has permanently lubricated bearings that require no maintenance.

TECHNICAL DATA – SWEPAC FR 95

Weight, net	89 kg
Base plate, width x length	435 x 430 mm
Height	1040 mm
Length	450 mm
Engine	Honda GX 160
Fuel tank capacity	3.1 liter
Fuel	Unleaded or alkylate petrol
Engine output, max	3.6 kW (4.8 hk)

Centrifugal force	14 kN
Frequency	91 Hz
Working speed	0–25 m/min
Hand/arm vibrations HAV according to ISO 5349 on gravel surface	<2.5 m/s ²
Guaranteed sound-power level, LWA	105 dB(A)
Sound pressure at operator, OP	90 dB(A)

PART NUMBER

204200-01	FR 95 with Honda petrol engine
